

His Holiness the Dalai Lama descended into Mundgod  
Peace and harmony to be bestowed  
Storms of disharmony blew upon us  
Preaching loving compassion  
drew uncontrollable tears  
Spawning disharmony  
drew uncontrollable laughter  
Bodhisattava practitioner with a dualistic face  
Win the hearts of the world with folded hands and laughter  
Reign the loving Tibetans with fist and wrathful face  
Preaching dependent of origination  
All phenomena are interdependent  
Tibetans are divided and conquered  
Preaching kindness and thou shall not harm  
Spreading disharmony in the community  
Preaching message of unity  
Splitting the Tibetans into pieces  
Inflaming disharmony in Sangha community  
Oh Lord Buddha witness this agony  
Declaring freedom of religion and claiming no force is applied  
Demanding worship of protector must be abandoned  
Freedom of religion is stipulated with a demand  
Dedicated life since childhood to practice Buddha dharma  
Opposition to the demand monks are expelled and exiled  
Monks are forced to sign and take an oath in public

Sign and oath will preserve monastic way of life  
Loving kindness of parents nursed us in the monastery  
Follow vows of refuge and laws of karmic forces  
Refuge and karmic laws are traded for an oath  
Brutal enemies destroying tradition is shock no more  
What is truly shocking is the divide within Tibetans  
Twenty years of religious freedom and harmony  
What has changed and caused this disharmony  
Oh wise and impartial ones please witness the truth  
Without your impartial truth the worldly ones will be misled  
In agony and pain we uncontrollably weep  
Cause and effect is infallible  
Witness this non-virtuous deed
